

AMNA YOUSAF

Computer Science Student | Software Engineer & Full-Stack Developer

Karachi, Pakistan | +92 323 9103846 | amnayousuf538@gmail.com | github.com/Amnayousaf25 | vercel.com/amna-yousafs-projects

PROFESSIONAL SUMMARY

Computer Science student (BSCS, 6th semester) at Jinnah University for Women with two completed 3-month software development internships (6 months of combined hands-on experience) and a portfolio of deployed, production-grade applications. Hands-on experience spans ERP development (Odoo, Odoo OWL), business intelligence (Power BI), and full-stack web and mobile engineering (React, React Native, Next.js, TypeScript). Skilled at translating requirements into working, production-ready features — from initial build through debugging and deployment. Strong foundation in Object-Oriented Programming, relational databases, and Data Structures & Algorithms, applied consistently across internship and independent projects. Looking to bring this versatile, full-stack skill set to a collaborative software engineering team.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, PHP, Python; coursework in Java, C, C++

Core CS Foundations: Object-Oriented Programming, Data Structures & Algorithms, Relational Database Design

Web & Mobile Development: React, React Native, Expo, Next.js, HTML5, CSS3, Responsive Design, Component Architecture, REST APIs

ERP & Data Tools: Odoo ERP, Odoo OWL, Power BI

Database: MySQL, Relational Databases, SQL

Tools & Practices: Git/GitHub, VS Code, Vercel, Linux (Ubuntu), Agile Methodologies, Debugging, Code Review

PROFESSIONAL EXPERIENCE

Software Engineering Intern — Geeks of Kolachi, Karachi, Pakistan

Jun 2026 – Sep 2026

- Completed a 3-month software engineering internship working across Odoo ERP development, Odoo OWL, and Power BI, alongside React-based and React Native/Expo application development.
- Converted business requirements into working ERP features and application functionality, collaborating with the team on debugging and iterative development.
- Applied database and software engineering concepts on real internal tooling, using Git/GitHub for version control and team workflows.

Web Development Intern — OPTIMARK Solution, Karachi, Pakistan

Sep 2025 – Nov 2025

- Completed a 3-month internship developing production website components using JavaScript and Next.js, translating client requirements into working, responsive features.
- Developed and debugged responsive UI components for live client-facing web projects, working within existing codebases and team coding standards.
- Managed domain-related deployment tasks end-to-end, supporting smooth website launches and troubleshooting post-deployment issues.
- Recognized by company leadership for reliability and consistent, on-time delivery throughout the internship.

FEATURED PROJECTS

AI Study Assistant — Mobile Application

React Native • Expo • TypeScript • Gemini API

- Built a cross-platform AI-powered study assistant using React Native and Expo, integrating Google's Gemini LLM API to generate study content and answer queries in real time.
- Designed the app architecture in TypeScript with a component-based UI, managing API request/response handling for a responsive, chat-style experience.

Resume Builder Web Application

Next.js • TypeScript • React

- Built a full-featured resume builder from requirements through deployment, with a multi-section form system, real-time preview, and optimized image upload.
- Deployed to production on Vercel with an automated CI/CD pipeline, managing the release process from build to live deployment.

Next.js Hackathon Application

Next.js • TypeScript • React

- Delivered a production-ready application within a 3-day hackathon, rapidly translating written requirements into functional features under time pressure.

Library Management System

Flask • Python • SQL

- Built a Flask-based backend applying relational database design and SQL for data operations, with SJF (Shortest Job First) OS scheduling logic integrated as coursework.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

Expected 2027

Jinnah University for Women, Karachi, Pakistan — Currently in 6th Semester

Relevant Coursework: Object-Oriented Programming, Data Structures & Algorithms, Database Management Systems, Software Engineering Fundamentals, Operating Systems, Computer Networks, Web Development, Human-Computer Interaction.

CORE STRENGTHS & LANGUAGES

Core Strengths: Problem-Solving, Debugging, Code Review, Team Collaboration, Time Management, Adaptability, Attention to Detail, Rapid Learning

Languages: English (Fluent), Urdu (Native)

CERTIFICATIONS & ACTIVITIES

- English Access Microscholarship Program — U.S. Embassy-sponsored program recognizing English proficiency and professional development.
- Hackathon Participant — multiple competitive hackathons building and shipping functional applications under strict time constraints.

ADDITIONAL INFORMATION

- Portfolio: Live project demos at vercel.com/amna-yousafs-projects
- Open Source: 16+ public repositories on GitHub (github.com/Amnayousaf25)
